## A BILL

To amend the Small Business Act and the Small Business Investment Act of 1958 to increase the percentage of loans guaranteed for small business concerns that are manufacturers.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Investing in America’s  
5 Small Manufacturers Act”.

1 **SEC. 2. FINDINGS.**

2 Congress finds the following:

3 (1) In 2015, manufacturers contributed over  
4 \$2,000,000,000,000 to the United States economy  
5 and accounted for over 12 percent of United States  
6 gross domestic product.

7 (2) Manufacturing is one of the most important  
8 sectors of the United States economy with respect to  
9 employment. In 2013, the manufacturing sector sup-  
10 ported over 17,000,000 indirect jobs in the United  
11 States, in addition to the 12,000,000 individuals  
12 who were directly employed in manufacturing. Com-  
13 bined, these indirect and direct manufacturing jobs  
14 represented more than 20 percent of United States  
15 employment in 2013—more than any other sector.

16 (3) While the United States has added over  
17 14,000,000 non-farm jobs since 2010, manufac-  
18 turing job growth has lagged and added only ap-  
19 proximately 900,000 jobs. Post-recession job recov-  
20 ery averages since the 1940s indicate that another  
21 1,200,000 manufacturing jobs should have been cre-  
22 ated during this period.

23 (4) Small manufacturers are the backbone of  
24 the United States manufacturing industry, account-  
25 ing for nearly half of all manufacturing jobs in the  
26 United States. Ensuring that small manufacturers

1 have adequate access to capital is critical to creating  
2 manufacturing jobs and the growth of the United  
3 States economy.

4 (5) The 2015 Federal Reserve Small Business  
5 Credit Survey indicates that of the 52 percent of  
6 manufacturers that applied for financing during the  
7 survey period, 65 percent did so to expand their  
8 business or to pursue a new business opportunity.  
9 The survey also indicates that 42 percent of manu-  
10 facturers received less financing than they requested,  
11 the primary result of which was delayed expansion  
12 of their business.

13 (6) The loan guarantee programs of the Small  
14 Business Administration under section 7(a) of the  
15 Small Business Act (15 U.S.C. 636(a)) and title V  
16 of the Small Business Investment Act of 1958 (15  
17 U.S.C. 695 et seq.) encourage lenders to provide  
18 loans to creditworthy small businesses that would  
19 not otherwise obtain financing on reasonable terms  
20 and conditions and can serve as an excellent mecha-  
21 nism by which to increase the availability of afford-  
22 able credit to small manufacturers in the United  
23 States.

1 **SEC. 3. SMALL MANUFACTURERS.**

2 (a) LOAN GUARANTEE PERCENTAGE.—Section  
3 7(a)(2) of the Small Business Act (15 U.S.C. 636(a)(2))  
4 is amended—

5 (1) in subparagraph (A), in the matter pre-  
6 ceding clause (i), by striking “and (E)” and insert-

8 which manufacturing is a considerable

6 \$350,000, the Administration shall  
7 collect a guarantee fee under this  
8 paragraph equal to 50 percent of the  
9 guarantee fee that the Administration  
10 would otherwise collect for the loan.

11           “(ii) EXCEPTION.—The requirements  
12 of clause (i) shall not apply to loans made  
13 during a fiscal year if—

14           “(I) the budget of the President  
15 for that fiscal year, submitted to Con-  
16 gress under section 1105(a) of title

25 in subclause (I); and

1                   “(bb) a detailed discussion  
2                   indicating why not implementing  
3                   clause (i) will cause the cost of  
4                   the program established under  
5                   this subsection to be not more  
6                   than zero.”.

7           (c) ASSISTANCE THROUGH SBA PROGRAMS.—The
